Skills

Programming languages
C# (.NET), Python, SQL, Java, PHP, VBA

Frameworks
Blazor, Flutter, Next.js, VueJS, Spring, Laravel

Data
MariaDB, Cassandra, Firebase, Kafka, Spark

Core Competencies
Git/GitLab, Docker, CI/CD, Agile Methodologies, UML.

Languages
- **French:** Native
- **English:** B2

Interests

Sports
Fencing (9 years in club, National competitions), Bodybuilding, Running, Hiking.

Travel
4-month solo road trip across Canada and the United States (Autonomous travel).

Work experience

Junior Web Developer (Apprenticeship) — Oct. 2024 - Sept. 2025
Alb@rosa Labège
- **IAM Automation (Airbus):** Engineer a .NET Worker Service and Blazor UI to streamline and automate user access workflows.
- **Security Tooling:** Develop a Low-Code Rego policy generator to empower non-technical profiles with security management.
- **ERP Systems:** Spearhead optimizations and functional evolutions for the core internal management system.

Junior Mobile & Frontend Developer (Apprenticeship) — Nov. 2023 - Aug. 2024
Pinkin Toulouse
- **Flutter Development & Maintenance:** Integrate new features and resolve complex bugs to ensure application stability.
  - **System Optimization:** Enhance user experience by reducing load times and optimizing media assets for better performance.
  - **App Architecture (GetX):** Re-engineer the codebase using GetX to decouple business logic from the UI, improving long-term maintainability.
- **Back-Office Development (Next.js):** Build a dedicated back-office to streamline data entry workflows and content moderation.

Education

Master's Degree in Software Engineering — Oct. 2023 - Sept. 2025
Epitech Toulouse
Official French State Certification (RNCP Level 7 – Ref. 38114)
- **Specialization in AI & Big Data:** Study and implementation of predictive models and large-scale data processing solutions.
- **ShopForMe Project (2 years):** Design an IoT & Mobile solution to enhance autonomy for visually impaired shoppers in retail environments.
  - **Mobile Lead:** Architect the Flutter application and spearheaded integration with IoT and Back-end teams.

Bachelor in Computer Science (Licence Pro RTAI) — Sept. 2022 - Sept. 2023
Université Toulouse Capitole Toulouse
- Advanced studies in Object-Oriented Programming (Java), Database Design (SQL), and Digital Law.

Associate Degree in IT Services for Organizations (BTS SIO) — Sept. 2020 - Jun. 2022
Lycée Ozenne Toulouse

Personal projects

- **SmartApply – AI-Powered Job Search Assistant**
  - **Automation:** Build a multi-source web scraping engine with technical filtering to streamline job discovery.
  - **Generative AI:** Integrate **Mistral AI** to automate the pre-generation of
  - tailored cover letters.
  - **Dashboard:** Develop an interactive pipeline to track application statuses and deadlines.
  - **Stack:** Angular, Python (**FastAPI**), Mistral LLM. **(Active development)**
- **Personal Portfolio**
